EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeff Kessler on June 30, 2010.

The application has been amended as follows:

The following claims are canceled.

Claims 5-6, 29, 40, 41, 49-52.

The following claim has been amended.

27. A method of treating hypercalcemia ~~mammalian conditions characterized by increased activity or production of PTH or PTHrP~~, said method comprising administering to a subject in need thereof an effective ~~inhibitory~~ amount of a peptide of claim 1.

28. A method of treating hypercalcemia ~~mammalian conditions characterized by increased activity or production of PTH or PTHrP~~, said method comprising administering to a subject in need thereof an effective ~~inhibitory~~ amount of a composition comprising a peptide of claim 1 and a pharmaceutically acceptable carrier.

Election/Restriction

Art Unit: 1654

Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 24-25, 27-28, 30-36, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, 6/25/08 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 6/25/08 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims are drawn to PTH antagonist peptides.

The reference of Gensure et al. teaches a PTH antagonist peptide that contains a Bpa (p-benzoyl-L-phenylalanine) residue in position 2 of the sequence. The reference specifically discloses (Bpa², Ile⁵, Trp²³, Tyr³⁶]PTHrP-(1-36) and Bpa²-PTHrP-(1-36). While the reference teaches peptides with Bpa residue in position two, similar to the claimed invention, the reference does not teach nor suggest the other substitutions claimed in other positions as claimed. The disclosed peptides of Gensure are not rendered obvious by Gardella or Shimizu since these references teach substitutions

Art Unit: 1654

at positions 1, 5, 8, 10, 11, or 14 for agonist peptides. The claimed peptides act as antagonists against a PTH(1-14) agonist (see figure 5 and 6 of the instant specification). Thus, one would not have any motivation, nor have a reasonable expectation, to make the substitutions taught in Gardella or Shimizu in the Gensure peptides because Gensure peptides are antagonists and the Gardella and Shimizu peptides are agonist. Thus, the claimed invention is both novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ANISH GUPTA whose telephone number is (571)272-0965. The examiner can normally be reached on 5/4/9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tsang Cecilia can be reached on 571-272-0562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
